

Dear ESK parents,

first of all I would like to introduce myself; my name is Andrew Holzke and I am the new occupational counsellor at the ESK. My task will be to inform, support and accompany your children and our students on their way to their internship.

Today we would like to ask you to support us in a very special question. You are working successfully in different companies, some of you in executive positions. We would like to pool all the offers for practical training and apprenticeship training positions in order to offer a wide range of possibilities for our students so they can sneak into the working environment. Maybe they start an apprenticeship or even get a job offer after finishing their studies.

If you are working in a company that is suitable for an internship, complete the attached form and return it to the class teacher. Doing so you contribute to the future of young adults on their way to successful career.

Thank you
